Reference - Lillian Shuk Yun Lam

To Whom It May Concern,

I have known Lillian Shuk Yun Lam in a professional capacity since 2017 as her line manager in Secondary, Learning Support at the Australian International School.

Since her appointment to Learning Support Lillian has been instrumental in implementing key systems and procedures such as the Google Team Drive which has allowed the department to better ensure continuity of care across the Secondary School. Lillian demonstrates a student centered approach to teaching which is evident in her differentiated classroom practice and the one on one student support which she has been required to deliver in her role as a learning support teacher. In addition, she has effectively co-taught, differentiated and modified curriculum for a range of academic subjects from Grades 6 - 10. Lillian has a methodical approach to teaching and is able to effectively use data to track student progress and make adjustments to programmes as appropriate. She has used various standardised tests to track student progress and has been able to effectively report to teachers and parents.

Lillian is a lifelong learner and this has been demonstrated through her recent qualification as a Google Guide and certified Google Educator. She has been able to utilise a variety of software for blended learning and data tracking, encourage use assistive technologies for students with learning needs. Furthermore, she was instrumental in the Teacher Inquiry Group tasked to overhaul the school-wide Individualised Educational Plan. Lillian is a diligent and committed teacher who builds a community of learners who feel safe and supported within her classroom. She has encouraged and nurtured relationships with students and their families through effective communication as Case Manager. As part of her commitment to student support beyond the classroom, Lillian has assisted in coordinating the numeracy and literacy peer-mentoring program, connecting both younger and older students.

On a personal note, it has been wonderful to have Lillian as a colleague and co -worker. Her attention to detail and high level of care for the students she works with have been outstanding. I have no hesitation in recommending Lillian for any position in special education.

Yours Sincerely,

Claudia Campbell-Pegg - Head of Learning Enrichment (Secondary)
